SUMMARY

Computer Science undergraduate with hands-on full-stack development experience (Java, React.js, Node.js) and working proficiency in Python and SQL. Comfortable building end-to-end web applications and database-driven features, with a strong interest in cloud platforms and DevOps practices. Quick learner who collaborates well in agile, fast-moving teams.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Web & Frameworks: React.js, Node.js, Express.js, HTML, CSS, PHP

Databases: SQL, MySQL, MongoDB, JDBC

Tools & Practices: Git/GitHub, REST APIs, Agile collaboration; learning cloud platforms (AWS/Azure/GCP) and DevOps tooling (Docker, CI/CD)

EXPERIENCE

Arlig Tech — Full Stack Development Intern *Jan 2024 – Mar 2024*

- Built an E-Commerce web application end-to-end using React.js, translating requirements into working features.
- Designed responsive, reusable UI components, improving consistency and reducing duplicate code across pages.
- Collaborated with the development team using version control and agile workflows to ship features on schedule.

Karunadu Technology — Full Stack Development Intern *Aug 2023 – Oct 2023*

- Developed an E-Commerce web application in Java, implementing backend logic and core application features.
- Worked with relational data and SQL queries to support product, cart, and order functionality.
- Applied structured software development practices while learning web application architecture in a team setting.

PROJECTS

Smart Hire Hub — MERN Stack

- Built a full-stack recruitment portal with user authentication and job application workflows.
- Integrated MongoDB for data persistence and designed a responsive front-end interface.

justAsk — React.js

- Developed a responsive online shopping platform with product listing and interactive UI features.
- Applied modern React practices (component reuse, state management) to improve user experience.

EDUCATION

Acharya Institute of Technology, Bengaluru *2024 – 2027*

Bachelor of Engineering in Computer Science & Engineering

Govt Polytechnic College, Vijayapura *2021 – 2024*

Diploma in Computer Science Engineering
